

2004

ANNUAL REPORT

**BUILDING
THE SOUTH**

“*The most important asset of our company is our staff. We are not a "bricks and mortar" institution. We are a service business.*”

*Burke Welsh
President & Chief Executive Officer*

From the outside looking in, it is easy to see the success of your company in 2004. Earnings increased nearly 20%, our balance sheet grew 19%, and our asset quality ratios improved significantly. What's not readily apparent from the outside, is the effort and dedication of the 300 plus employees and directors pulling

as a team. The groundwork that they laid over the previous three years

allowed us to return our focus to quality growth and earnings in 2004. For the year, our loan portfolio grew a net \$107.5 million, and we had more

than \$470 million in total loan production. This exceptional growth, coupled with good expense controls, allowed us to increase our diluted earnings per share to 88 cents, a 19% increase over the 74 cents earned in 2003.

As earnings have increased, your Board of Directors has continued to increase the dividend payout; from 7 cents per share for the first quarter of 2004 to 11 cents per share for the first quarter of 2005. We will remain focused on the goal of providing you with a consistent return on your investment in our Company.

We continue to search for expansion opportunities in growth markets in both Georgia and Florida. In July, we opened a new branch office in Stockbridge, Georgia, doubling our

presence in the rapidly growing Henry County market. In April 2005, we will open a new loan production office in Cobb County, Georgia. We are also actively exploring the possibility of opening a full-service branch in Athens, Georgia. We recently hired two seasoned lenders to join our team in that market, and we are excited about our future in the Athens area. We continue to focus more on organic growth than on acquisitions. This strategy has proven successful for us over the past three years.

As we approach the \$1 Billion asset level in 2005, we must continue to invest in our infrastructure to support our growth. Much emphasis has been placed on credit administration, loan operations, deposit operations, audit, and information technology. Without these vital support areas, our

production staff could not grow and expand.

The most important asset of our company is our staff. We are not a "bricks and mortar" institution. We are a service business. Our success totally depends on a well trained, efficient, and caring staff. At every opportunity please visit one of our locations. We feel very confident that you will come away pleased that you are a shareholder.

Thank you for your support of our efforts. We remain focused on providing you with an investment that will continue to grow and prosper in an ever-expanding footprint.

PAB Bankshares History

PAB Bankshares, Inc. is a bank holding company headquartered in Valdosta, Lowndes County, Georgia. PAB was organized and incorporated in 1982 under the laws of the State of Georgia as the holding company for **The Park Avenue Bank**. Since our incorporation in 1982, we have acquired five other Georgia financial institutions and one Florida financial institution, and subsequently merged those institutions into the Bank. The Bank was founded in Valdosta in 1956, and it became a state-chartered commercial bank in 1971. In 2001, the Bank became a state member bank of the Federal Reserve System. The Bank operates 13 branches located in seven counties in South Georgia; three branches and two loan production offices located in four counties in North Georgia; and one branch and a loan production office located in two counties in Florida.

PAB Bankshares Financial Highlights *(continued)*

2004 was a benchmark year for the Company in terms of growth and profitability. For the first time in five years, the Company posted a double-digit asset growth rate, a return on average assets greater than 1.0%, and a double-digit return on average equity. The increase in interest rates and the strong loan growth during the second half of the year helped to increase our net income nearly 20% in 2004.

Our goal is to continue to expand our presence in the higher growth markets in North Georgia and Florida, seek opportunities to enter new growth markets, and recapture lost market share in our South Georgia markets. A breakdown of **loans** and **deposits** as of December 31, 2004 and 2003 and the percentage of net growth (or contraction) in 2004 for each market is provided in the table below.

* In addition to the geographic concentrations noted in the tables above, we had approximately \$35.8 million in loans secured by real estate in Florida to customers of our South Georgia, North Georgia and Treasury offices.

The Company continues to maintain a very strong **capital** position. Our capital is a sign of financial strength and stability in the banking industry, and it will allow us to grow our balance sheet at a healthy pace for years to come.
